The SkillBott Explorer - A 260 question career self-assessment that helps identify a Career Pathway:

- Career clusters that might be of interest
- Current skills and abilities
- Current values and need

LESSONS
Teacher-Friendly

- Designed for teachers who may not be familiar with the course content
- Common lesson structure allows for quick and easy prep
- Total lesson flexibility – lessons can be modified to suit any time constraints, skill need or areas of interest

Student Engaging

- Lessons use multiple modalities to engage students to express their feelings, experiences, knowledge and ideas:
 - Group Exercises
 - Role Playing
 - Discussion Forums
- Over 375 videos, animations and avatars

METHODOLOGY

- At the core of employability skills is the social interaction of individuals in a work environment
- The SkillBott curriculum utilizes group based experiential lessons rooted in practical, real life scenarios
- SkillBott teaches interactive social skills the traditional way with extensive reading and multiple choice testing
- SkillBott uses multiple modalities of learning and features varied activities appealing to all types of learners
- The result: lessons are engaging, informative, instructive, interesting and entertaining

DELIVERY
Career Coach 1:1

Work 1:1 with a SkillBott coach to identify career interests, assess skill development needs and build a job search plan.

Virtual Classroom

Participate in a weekly virtual class with other students to review lessons, identify skill strengths, discuss strategies and share successes.

Independent Study

Work at your own pace with self-directed lessons. An advisor will grade all assignments and assessments and will provide feedback on work.

USERS

Whether you're starting a career, transitioning to a new career, re-entering the workforce or leaving a rehabilitation program, SkillBott will put you on the fastest pathway to career success.
